MANY EXPECTED AT SUNDAY SCHOOL SUNDAY

Men Are Taking Interest In Sunday School and Attendance Is Growing At All Schools.

The people of our city and county have shown the last few Sundays what they can do in the way of Sunday school attendance. They have put Mason county on the map as a Sunday school county, being one of the two leading counties in the recent Go-To-Sunday-School-Day campaign. Many have said to themselves and to others that Sunday school is a time place to go and that they expected to keep it up. Many do not realize what a modern Sunday school is. What they saw in many of our schools was a revelation to them. Instead of a few children with a few adults to teach them—as it was in days gone by—they have found large classes of men and women, of young men and young women, all enjoying to the full the inspiration of a period of reverent worship, then a period of study of God's word under competent teachers, then more songs and pleasing closing exercises. What could be better than all ages meeting together in a service of this sort?

The interest among the men is truly gratifying. Several of our churches specialize in big men's classes. And they do like it. If you don't think so just hear them tell about it. But the best proof is found by attending yourself.

The reports from the schools for Sunday will be looked for eagerly. The public will be watching to see what effect the special drive for attendance is going to have. You who have been attending for several Sundays do your utmost to be in your places again Sunday. Show the public that it is going to be a habit with you hereafter to attend Sunday school and church. You will find a warm welcome awaiting you at any school in the city. It is the Lord's Day; it is also your day, your day to be in God's house. All things are now ready. Come!

COMMENCEMENT SERMON AT MINERVA SUNDAY

Will Be Preached By Rev. G. C. Banks, of Lexington, Pastor of the Minerva Christian Church.

Commencement week of the Minerva High School will begin Sunday morning at 11 o'clock, when the commencement sermon will be preached at the Minerva Methodist church by the Rev. G. C. Banks, of Lexington, pastor of the Minerva Christian church.

Ordinarily schools feel that they are compelled to seek beyond the confines of their own county to find a man able to do justice to a task of such dignity and responsibility as that of a commencement preacher. The Minerva school in this respect is the exception to the rule, as it found in Mr. Banks, a local minister, a man of broad education, a deep student, and an excellent pulpit orator. In every way equipped for the work at hand. In fact, Mr. Banks is rated as one of the ablest of the younger ministers of the state. His ability as an orator is attested by the fact that while a college student he won the Kentucky Intercollegiate Oratorical Contest, thus receiving the distinction of champion college orator of the commonwealth. During the World War Mr. Banks saw active service overseas, where he gained a wide knowledge of men and affairs that stands him in good stead in his work.

Special music has been arranged for the commencement sermon Sunday morning. The public is cordially invited to attend the service.

SPECIAL APPEAL FROM GENERAL CONFERENCE

That Sunday, May 23rd, Be Observed By All M. E. Churches As Pentecost Day.

A special appeal has gone forth from the General Conference of the Methodist Episcopal church now in session in Des Moines, Iowa, that Sunday, May 23rd, Pentecost Sunday, be observed by all churches as a day of In-gathering of members. The General Conference will make it a day of special prayer for all churches that every one outside of the church be brought into the folds of the church on that day.

The Third Street M. E. church, this city, will endeavor to make it one of the best of days. A special membership committee is at work and will get in touch with every available person within the constituency of the church in an effort to get them to unite with the church on that day. All members of the Sunday school not members of the church will be urged to unite at this time. Persons having moved to town holding church letters, will be urged to transfer letters, so that they be actively united with the church they attend. The recent religious survey revealed an astonishing number of church members who are members elsewhere and have not transferred their letters to any of our churches. All such will be urged to see the necessity of being actively united with the church of their present home. This effort followed throughout Methodism should make a great change for the better in all the churches.

\$25,000 GIVEN TO TRANSYLVANIA COLLEGE

\$10,000 For Athletic Field Fund By Thomases, And \$15,000 For Dormitory From a Woman.

Two big gifts to Transylvania College were announced Thursday, one of \$10,000 to the athletic field fund from Ben Allen Thomas and W. J. Thomas, of Shelby county, and the other of \$15,000 from a woman devoted to the interest of Transylvania, but who believes in the scriptural injunction to "let not thy right hand know what thy left hand doeth," and whose name is not to be made public.

Ben Allen Thomas was a student at Transylvania in the classes of 1909, 1910 and 1911. The death of this father made it necessary for him to leave school to take charge of the farm and he has made a splendid success of it. Two years ago he and W. J. Thomas, who is his uncle and a curator of the college, gave \$62,000 in cash to Transylvania. Ben Allen Thomas was captain of the famous 1911 foot ball team, was manager of the baseball team for a time and a member of the college's track team. He was one of the most popular students the college ever had.

It is probable that the athletic field will be named Thomas Field in honor of the donors of the \$10,000 fund for its equipment, to which the college will add a like sum to furnish a stadium and complete athletic equipment. The location is expected to be on the present North Broadway athletic field.

Mr. Thomas married Miss Vestina Bailey, also a Transylvania graduate, and they welcomed to their Shelby county home April 20 Ben Allen Thomas, Jr.

No information was obtained at the college as to the identity of the giver of the \$15,000 for the woman's dormitory fund.

BANDIT SHOT DOWN AFTER \$500,000 TRAIN ROBBERY

Chicago Police Besiege Fugitive In Apartment House and Fight Unhills Following Looting of Mail Car.

Chicago, May 14.—A three-hour pistol battle in a fashionable apartment building here ended the career of Horace Walton, train robber, early today. Walton successfully held up an Illinois Central passenger train into last night and obtained a mail pouch said to contain \$500,000 in currency.

His getaway was seen by police and he was trapped and killed. The pouch was recovered.

Walton boarded the train shortly before midnight at Kankakee, Ill. He obtained entry to the mail car by posing as an inspector, mail clerks said.

Entering the car, Walton drove the five passengers into a corner and bound the hands of the chief clerk. The other four he lined up at the end of the car, hands in the air.

He selected four registered mail pouches which had been taken aboard the train at Decatur, Ill. Leisurely he emptied the contents into a pouch he carried.

Walton talked and laughed with the messengers while he held them at bay more than three hours as the train was speeding toward Chicago.

RICHARD THOMAS FINED FOR SPEEDING.

Richard Thomas, of Cincinnati, the young man who was running the automobile that collided with the rear end of a lumber wagon yesterday morning in the fifth ward and injured the driver, plead guilty in Police Court to a charge of having violated the traffic ordinance and was fined \$13.90.

WOMAN'S CLUB MEETING.

The Woman's Club will meet tomorrow afternoon at 2 o'clock at the library to make arrangements for the meeting Tuesday night at the Third Street M. E. church.

A tobacco barn belonging to U. S. Williamson, in Lewis county, was burned. The origin of the fire is not known. Loss about \$1,000. Insured for \$200.

Auctioneer Hensley C. Hawkins, passed through this city this morning en route to West Virginia to cry a land sale tomorrow.

LEGION WEEK PROCLAIMED BY GOVERNOR MORROW

Urges Every Citizen To Cooperate In This Movement, Work of May 17-22 Set Apart.

Frankfort, Ky., May 13.—Governor Edwin P. Morrow has issued the following proclamation:

"The week of May 17 to 22 is hereby set apart as American Legion Week in the Commonwealth of Kentucky.

"During this week it is the purpose of the National and State Headquarters of the American Legion to make an energetic attempt to reach every soldier of the Great War for the purpose of enlisting him as a member of the American Legion.

"I respectfully urge that every citizen co-operate in this movement; give it all publicity and that every soldier entitled by his service and sacrifice to participation in this order shall enroll himself as a member of this great American association.

"EDWIN P. MORROW,
"Governor of Kentucky."

Social Events

TOUCHING TRIBUTE TO SALVATION ARMY

Kentucky Marine, Now Sleeping at Chateau Thierry, Sent Beautiful Message Home to Loved Friend.

One dark night, shortly after the American marines had received their first baptism of blood at Chateau Thierry, a Kentucky boy, Gilbert Young, of Springfield, sat crouched in a dug-out writing a letter home. In it he described to one of his dearest friends and former teachers, Prof. George Colvin, now State Superintendent of Public Instruction of Kentucky, the terrible ordeal through which he had passed unscathed.

In one paragraph of that letter, now a precious and treasured memorial, the young Kentucky marine told of the great work that had been done during those trying hours by the various welfare agencies. "But greatest of them all," he wrote, "the greatest and best of them all, God bless them forever, is the Salvation Army."

The body of Gilbert Young, the brave Kentucky boy, lies today at Chateau Thierry beneath the lilacs of France, but his soul, poured out to his friend, goes marching on in tune with the great work the Salvation Army is seeking to accomplish now that swords have been turned into plowshares and spears into pruning hooks.

The sacrifice of Gilbert Young and the hundreds of other young Kentuckians who gave their lives for liberty during the world struggle will cause many a heart in the great Blue Grass state to pour out its benediction upon the Salvation Army when money is solicited in the Second Home Service Appeal campaign May 10 to 20. The Salvation Army today has always stands ready to help, wherever there is a need.

"IN THE DAYS NEWS"

Sir Douglas Fox who celebrates his 50th birthday today is regarded by members of his profession as one of the greatest engineers of his time. It is owing to his marvellous creative and constructive genius that the Cape to Cairo Railway has developed into an actuality. The great bridge across the Victoria Falls on the Zambesi River is another monument to his ability. The Mersey tunnel is another of his engineering achievements as is also the Liverpool overhead railway, and the great railway bridge across the River Dee. And more recently he was commissioned to prepare new plans for the long-talked-of tunnel under the English Channel, to connect England and France. Sir Douglas was educated at King's College, London, and has practiced his profession in the British metropolis for nearly sixty years.

THE PROPER COURSE

Information of Priceless Value to Every Maysville Citizen.

How to get in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Maysville citizen who used them and who publicly tells of the benefit derived?

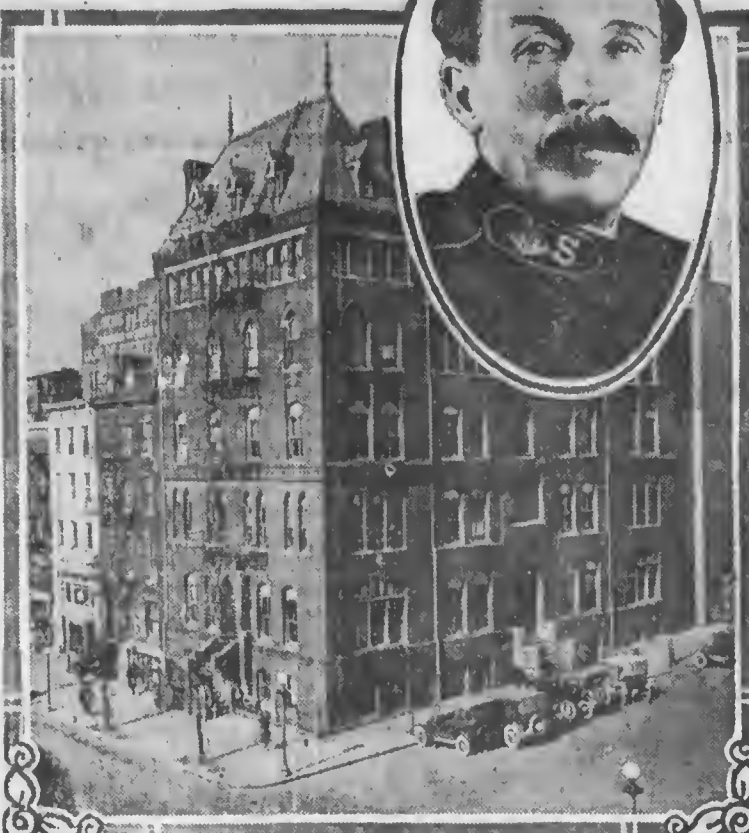

Ben P. Fleming, constable of Mason Co., 217 E. Lee St., Maysville, says: "I have used Doan's Kidney Pills off and on for several years, getting them at Wood & Son's Drug Store, and they have been of great benefit. At times my kidneys have been out of order and I have suffered from a dull, constant ache through the small of my back. The kidney secretions have been irregular in passage, too. A box or so of Doan's Kidney Pills has never failed to relieve me of the complaint in a short time."

Civil Service Makes Way for Salvation

Civil Service Building, Washington, D. C., Recently Purchased by the Salvation Army. (Insert) Colonel William Peart, Chief Secretary in the United States.

THE Civil Service Building at Washington, D. C., in which more than a million and a half persons have been examined for government positions, has been purchased by the Salvation Army. It will become the headquarters for all the Salvation Army activities in that district and in addition will probably contain a home for working girls, with hotel accommodations, bowling alleys, club rooms and sleeping quarters.

There is no state which does not contain thousands who will recall the historic old Civil Service Building, which is located at Eighth and E streets, Northwest. It became the property of the government on the recommendation of Theodore Roosevelt when he resigned as civil service director in 1895.

Originally erected in the interest of the post office department for the purpose of housing the money order division, it has also contained the Bureau

of Mines, together with several branches of the war department and the public health service. Recently the Civil Commission outgrew the building and moved to larger quarters.

The Salvationists will move into the new building in a few weeks. If present plans are put through this will add one more to the total of 67 hotels maintained by the Salvationists in this country in which accommodations and service are furnished free or at nominal prices. In these Salvation Army institutions, which are distributed throughout the country, more than 400,000 meals are furnished in a twelve-month, while the night lodgings supplied run close to a million a day.

According to Colonel William Peart, chief secretary of the Salvation Army in the United States, the acquisition of this new property will enable the Salvation Army to make a needed extension of its activities in the nation's capital.

Girl Refugee to Work for Lepers

A LEPER island has no terrors for one who has experienced the Turkish atrocities in Armenia, according to Miss Helen Chobanian, a young Armenian Salvation Army worker who is in New York on her way to Java, where she will work among the lepers with other Salvationists.

Miss Chobanian was born in Diarbekir, where she lived until she was five years old. Then the atrocities of 1896 took place. Her father and mother were killed before the little girl's eyes. She escaped with her brother over the rooftops to another street, where they hid from the Turks for a time, and were ultimately taken to Paris by Mrs. Booth-Hellberg, sister of Miss Evangeline Booth, Commander of the Salvation Army in the United States.

Miss Chobanian's assignment to the leper work is for an indefinite period. Java is one of 63 countries and colonies wherein the Salvationists maintain their work.

COFFEE!

BELLE OF MAYSVILLE

It is like the dew of Hebron; it has the sweetness of Nectar, the sparkle of champagne, the aroma of a thousand flowers.

For a cup of it Nero would have burned a thousand Romes, Caesar remitted the taxes of all the Jews and Napoleon turned peacemaker.

The only difference in this wonderful Coffee and the goods we sold years ago, it hasn't the kick.

Prices are right. A trial order will convince and will be appreciated.

FOUR SMALLEST NATIONS WOULD ENTER LEAGUE

Interest Aroused By People of the World's Smallest Nations in League.

New York. — Applicants by four of the smallest countries in the world— Iceland, the Republic of Georgia, San Marino, and Luxemburg—for admission to the league of nations, which are to come before the council of the league when it convenes shortly in Rome, Italy, have awakened interest in these lands and peoples.

Iceland, which until 1916 belonged to Denmark, has a population of approximately 70,000, and an area of 35,000 square miles. It was discovered by Norsemen in the ninth century, and continued as a republic until 1292, when taken by Denmark. In whose hands it remained until two years ago, when, in full agreement with the mother country, under a principle of self-determination, Iceland proclaimed its independence. King Christian of Denmark honored his former colony by sending a warship to salute the Icelandic national flag.

The Danish government in 1913 forbade the manufacture or sale of intoxicants, and the parliament of Iceland subsequently enacted a prohibition law making the nineteen systems, or parishes, in the country's three counties, or provinces, forever "dry." Icelandic women have long had the right to vote.

Reykjavik and Akureyri, the principal villages of Iceland, are on the coast, which is a belt of rich pasture land. The interior is a vast plateau, 2,000 or more feet above sea level, composed largely of sand and lava desert and practically destitute of grass or trees, excepting a few hardy hebes. There are no roads. For centuries Iceland was the center of volcanic eruptions, the lava fields covering an area of 4,500 square miles.

Georgia, formerly ancient Iberia, a part of Russian Trans-Caucasia, is populated by a people who call themselves Kartli, and who are known by neighboring Persians as Guri. The seats of government are Tiflis and Guria. In the third century they constituted a mighty state, which lasted until 1224, when it was divided into three parts. In 1800 Georgia was incorporated in the Russian empire.

The population of Georgia at the time she declared her independence of Russia, on May 26, 1918, was about 3,000,000. Eighty per cent. of the Georgians are farmers. On March 17 last the independence of Georgia was recognized by Italy. Under the Turkish peace treaty it is to become a free port.

San Marino, or Sammarino, is not only one of the smallest but one of the oldest republics in Europe. It is enclosed by three Italian provinces and consists of a craggy mountain 2,420 feet high, on which is the town and some circumjacent terraces with four or five villages. The population prior to the war was about 8,000. San Marino furnished an army to the allies. The chief industry is agriculture, including the raising of cattle. The legislature of the republic is composed of a senate of sixty members, elected for life, equally from the ranks of peasants, citizens, and nobles. Two presidents are chosen by the senate every six months.

Luxemburg, which lies between Rhenish Prussia, Belgium, and Alsace-Lorraine, and which was occupied by the Germans during the war, was made a grand duchy in 1814 by the king of the Netherlands. In 1867 it was declared neutral territory by the treaty of London. It has belonged, however, since 1842, and until the signing of the Versailles treaty, to the Zollverein or German Customs union.

The population of Luxemburg before the war was approximately 200,000, living in an area of about 1,000 square miles. Walloon French is spoken in a few villages, but the language of the people is chiefly a German dialect.

After the armistice in the world war the Germans evacuated Luxemburg. A revolution occurred but was halted by the allies. The American troops passed through the country and were well received. The Grand Duchess Marie, whose abdication had been demanded by a mob, fled from the country and a republic was proclaimed. This new government, however, existed only a few hours. The parliament called for a plebiscite to decide the future form

SORGHUM PRODUCTION. AS RELIEF MEASURE

Department of Agriculture Recommends Production of Large Crop For Making Sugar.

Washington, D. C. — As a simple, practical means of helping relieve the acute sugar and sirup shortage, the United States Department of Agriculture recommends the increased production of sorghum sirup which, it is pointed out, requires neither unusual skill nor expensive equipment to make. Furthermore, the methods of growing sorghum are similar to those of corn and in that respect involve little that is new to many farmers. Sirup manufacture is so simple that it can be carried on with profit by individuals utilizing small sized outfits of a daily capacity of 100 gallons or less. Where operations on a larger scale are feasible, community plants having a daily capacity of several hundred gallons are suggested by the department.

Sorghum sirup is palatable and pleasant flavored, and is an excellent table sirup. It can also be used as a substitute for rother sirups or for sugar in making certain breads, cakes, etc., and as a substitute for a part of the sugar in making preserves and the like. The cost of producing it at home is relatively low and usually an individual manufacturing it can readily sell any excess over his home needs to good advantage. Sorghum produced during the 1919 season brought the producers from 30 cents to \$1.50 a gallon, depending on the quality, marketing conditions, etc. Thus far the supply has fallen far short of the market demand.

The United States Department of Agriculture has prepared a brief summary of information regarding the growing of sorghum, and the equipment necessary to make sirup. A copy of this circular may be had by addressing the Department of Agriculture, Washington, D. C. Those desiring more detailed information regarding the subject should ask the department for Farmer's Bulletin 477, "Sorghum Sirup Manufacture."

DEEMED ALL WAS FAIR WHEN HIS LOVE WAS LOST.

Rochester, N. Y. — Deftly raising a window in the bedroom of Miss Rose Lipschitz, Abraham Arthur Bernan, 28, entered the room and took a seat on a trunk near her bed. For half an hour Bernan, with a loaded revolver in one hand and a flashlight in the other, watched the girl.

Bernan had been keeping company with Miss Lipschitz for two years or more and had given her many presents, including a beautiful set of furs. Recently the girl dismissed him. Bernan made efforts to reinstate himself in her favor and failed. Then he sought to recover his presents.

When he was moving about the room in search of his wife's Miss Lipschitz awoke. She saw the rays of the flashlight and screamed. Harris Lipschitz, father of the girl, ran to his daughter's aid. Bernan tried to escape through the window and became wedged. When Lipschitz seized him a struggle ensued and Lipschitz was shot in the right hand. Bernan was overpowered by other members of the family and held for the police.

WOODPILE PROVIDED FOR HOTEL GUESTS.

Los Angeles, Cal. — D. M. Linnard, manager of a string of California tourist hotels, has installed at Santa Barbara and Pasadena a common, old fashioned woodpile, well equipped with axes of various weights and not too sharp. Guests are welcome to chop to their heart's content.

Linnard is willing to furnish all the wood they want. It was Linnard who brought wood splitting to the masses—that is, the masses of tourists.

"Theodore Roosevelt inspired the idea," Linnard said. "I believe wood chopping is the best of exercise and a heap of fun as well."

The great English philanthropist, Jeremy Bentham, directed that, after his body had been dissected for the benefit of certain medical students, the skeleton should be reassembled, and after the elapsion of the period, and exhibited in a class case in University College, where it may still be seen.

YOU

Need a Bank and a Bank needs you. We think ours is the Bank you need and we are sure you are the customer we desire. There are so many helpful ways that we can serve you and you will always find us anxious to do so. But you will never know how numerous our ways of assisting you are until you open an account with us and give us a chance. Your need for a Bank is not based on the amount of money you have. The person with a small amount of money needs a Bank as badly, if not worse, than a person with a large amount. No matter how small your account may be, we would be glad to have it and assure you of a hearty welcome and our full assistance. Come right in and tell our officers of your needs and be assured of helpful and considerate treatment.

If you have any surplus money, we will pay you interest on it or assist you in making any kind of an investment you may desire.

COMBINES ENGINEERING GENIUS
WITH WONDERFUL DRIVING SKILL

Louis Chevrolet, Entrant of Frontenac Team in Speedway Race.

The backbone of America's defense against the European hordes that will strive to lower the Stars and Stripes in the eighth international sweepstakes on the Indianapolis speedway, Monday, March 31, will be Louis Chevrolet, dean of American racing drivers and patriarch of the speed sport, since the retirement from active competition of Barney Oldfield.

No less than six American speed creations entered for the contest, three Monroes and three Frontenacs, owe their construction to his inventive genius. In addition to which his ability at the wheel is rated second to none.

In the trio of Frontenacs that he campaigned during the last several seasons, he astonished the racing world with their unprecedented lightness, secured through the use of aluminum on a scale that had been regarded as impossible. Chevrolet conclusively demonstrated the soundness of his ideas, however, by sending his fragile creations through a succession of the most gruelling contests in history, and winning a majority of the events in which they competed.

ANNOUNCEMENT.

Covington, Kentucky, May 14th, 1920. For some time past it has been known to many of my Republican friends throughout the state that I would be a candidate for the United States Senator.

I now desire to make public announcement of that fact.

I keenly appreciate the responsibility and importance of this high position, and, in the event of my election, I will give to the duties of this office the best there is in me and will represent the people of Kentucky and of the United States to the best of my ability.

I desire, also, to take advantage of this opportunity to express my sincere thanks to the many Republicans throughout the state who have, without solicitation on my part, so kindly and generously offered me their support.

"I AM FULL OF VIGOR AND VIM NOW," HE SAYS

Run Down From Flu But Vola-Tonic Brought Back His Strength.

"Vola-Tonic helped me so much that I am glad to make this statement and I hope that everybody who is weak and run down like I was will give this medicine a trial," said Chas. Dietrich, 2521 Halstead avenue, Cincinnati, O.

"Last winter I had an attack of influenza and when I got up from it I was weak and run down all over. I tried everything but couldn't get back my strength.

"My appetite was so poor that I didn't eat much of anything at all and what I did eat I just had to force down. Of course, my food didn't do me any good and that is one reason why I couldn't get any stronger.

"I was mighty nervous, too, and couldn't sleep at night at all and I got up mornings feeling even more tired out than I did when I went to bed the night before.

"In short, my system all over was out of fix and I just dragged around at my work and didn't take any interest in anything.

"Finally, I decided to take Vola-Tonic and now I am mighty glad I did. My strength has come back fine, and I am full of energy and vigor again.

"It wasn't long after I started taking Vola-Tonic until my appetite came back. I'm eating real meals again now. Vola-Tonic put my nerves in good condition also and I sleep like a child at night.

"I hope every weakened, run down person will try Vola-Tonic."

Vola-Tonic, "Builder Of Strength," is being specially introduced in Maysville at J. J. Wood & Son's.
